Knowledge
Techniques to Bypass the BRAIN Filter

1. **What I am going to tell you is Not New**; *you already know*
2. **Entertainment** *through story telling*
3. Find out **how much you have in common** with the audience, **Highlight the Common** *("walking in the other person shoes – create a shared knowledge base").*
4. **Reveal "Hidden & Credible" information**, *to the audience* *(i.e., Operation Paperclip , Code Breaker, Romanian Schools, Rotterdam/New Orleans, Mind Reading)*
5. **Create and Expand the Common.**

Reminders:

- **All your decisions and predictions will be driven by your knowledge and the Expanded Knowledge you have access to, K+**
  (family, team members, friends, web, books – the volume is infinite, how do you find it, K- is on the way)
- **Sharing Wisdom/Knowledge On Demand is the most effective**

Decisions

- Decisions are driven by **your access to knowledge and experiences** (supplemented by access to additional information from family, friends, team members, books, web, etc.) and **feelings** (i.e., **reciprocity, authority, unity, scarcity, jealousy, circumstances, discounts, urgency, popular now (social proof), censorship** (want something is banned), etc.)
- Most people **do not realize** how many of their decisions are driven by **"feelings"**
- **A "Small Sample" of David's Decisions:**
  - **Refused** to go to school at age 12
  - Wanted to be a **Chemical** Engineer but the military needed **Electrical Engineers** (2+2 in hindsight)
  - **Quit ONR Research** at OSU when the Research Advisor demanded **to restart my completed research** accumulated over 2.5 years
  - **Did not allow Archie Griffin** to start a CIS course in "week 5" *(**W**oody, University **P**resident, **D**epartment Chairman all got involved in less than 87 minutes).*
  - **Quit IEX** after 3 years, because the investors would not accept a $195**M** offer from Bell South in 1987; the **IEX division** was sold later for $395**M** in 2006, and my friend was awarded **~$32M**
  - **Did not quit Iridium** when management **refused to fund** a **third earth station** for the constellation
  - **Did not quit Iridium** when **our** software contract was transferred to **Telecom Italia**
  - **Chose** not to fix my **misaligned Jaws** after the 2020 Incident
  - **Decision Fatigue**: On average, the BRAIN makes 35k decisions each day.
  - **Everyone Falls Down**. Getting Back Up is How You Learn How to Walk.

When Do You Go Along and When You should Resist

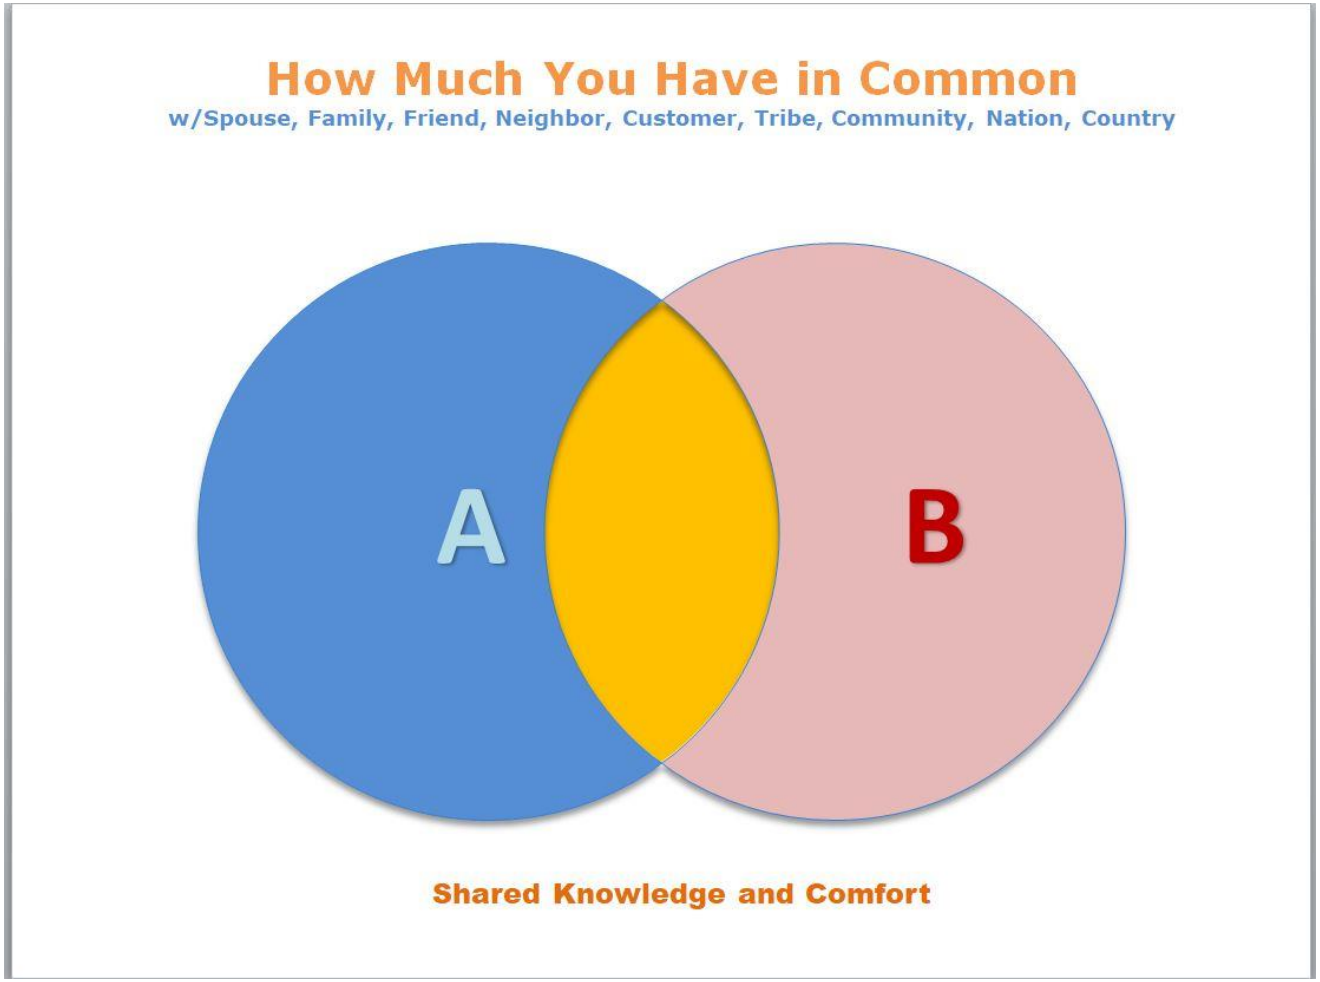
- **Rule #1:** Is the person forcing the decision on you **has a solid expertise** in this domain area
- **Rule #2:** Is the person forcing the decision on you **has financial interest**(s) in the outcome

FORWARD

Influence
The Common is the Secret

The biggest challenge in life – **dealing with people**

- We need to share knowledge, budgets and workload, deal with diverse cultures and backgrounds
- Trips to Columbus, **Getting a Contract**, Italians in Dallas, **You have an Accent**
- **Listen, Seek Out Perspective Sources, Highlight the Common**

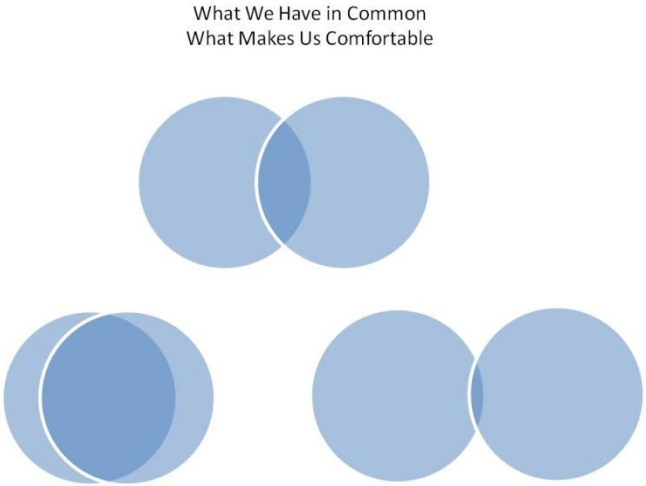


Influence

Walk, Play, Trial, Life

The secrets of “walking in another person's shoes”

"**If an opinion contrary to your own makes you angry**, that is a sign that you are subconsciously aware of having no good reason for thinking as you do. If some one maintains that two and two are five, or that Iceland is on the equator**, you should feel pity rather than anger,** unless you know so little of arithmetic or geography that his opinion shakes your own contrary conviction.
The most savage controversies are those about matters as to which **there is no good evidence either way.**
Persecution is used in theology, not in arithmetic, because in arithmetic there is knowledge, but in theology there is **only opinion**. So whenever you find yourself getting angry about a difference of opinion, be on your guard; you will probably find, on examination, **that your belief is going beyond what the evidence warrants**."
— Bertrand Russell, An Outline of Intellectual Rubbish (1943)



“Never Judge a person until you have walked a mile in their shoes.”

Then you are **a mile away**, and **you have their shoes**.
